All persons indebted to this paper are kindly requested to pay up as the publisher is anticipating a business venture that will require all the money owing us and more too. We have several hundred dollars out on job work, advertising and subscription, which is small to the different persons who owe such indebtedness, but if all paid in would be much to us. Start the new year right by owing the printer nothing.

We have a purchaser for a small farm well located, but it must be cheap. Cash will be paid for the right kind of a place. For further information, apply at this office.

Summer in Winter.

Friday, Saturday and Sunday were most warm enough for August, having a very Springlike appearance, and the sweet notes

of the Spring bird were to be heard in the trees. The warm weather prevailed in all parts of the United States, being even warmer in some parts of the North than in Kentucky. It began raining here Monday which was followed by cooler and more wintry weather.

SPOUT SPRING.

Shelt McKinney was in Clark county two days last week on business.

Mr. and Mrs. Jasper Todd, of Ruckerville, are visiting relatives near here.

T. S. McKinney was below a couple of days last week on a business mission.

Pastor George D. Prentiss was unable to be at the Methodist church Sunday and fill his regular appointment.

J. F. McKinney had a very valuable mule to die last week of pneumonia. He had refused \$175 00 for the animal.

Asa Todd has rented an eighth section of land in Missouri and will go there March 15th and cultivate a crop of corn this summer. He is not moving there and will be back after his crop is made. The move is merely an experiment with Mr. Todd, and he has no idea of selling his two good farms here and locating permanently in the West.

Roads and Markets.

A highly important feature of the highways question is the effect of good or bad roads upon the local markets and their supply. In all the cities and larger towns there is a demand for the bulkier and heavier products, such as hay, straw and grain. In many cases the surrounding country is quite capable of supplying the demand; in all cases it should do so as far as possible; in most cases it does not. Instead, supplies are brought into the towns by rail, canal or river from far away, perhaps from other states, while at the same time, within a few miles of the market thus supplied, are farms that have been abandoned as not worth working, and others whose owners are in chronic discontent and despair at the apparent impossibility of getting profitable prices for their crops. In the East they say the big farms of the West have monopolized the markets and so farming no longer pays there. Now, one prime secret of the trouble in all parts of the country, lies in bad roads which keep the producer and the consumer apart, by making it difficult, if not impossible, for the farmers to get their produce to market. The farmer of a thousand miles away can haul his over roads that are so rough and miry that half a ton is a heavy load for a horse to draw even slowly. It is not true that farms in the East are no longer productive, nor that the Eastern market no longer offers fair prices. Nor is it true that in the West and South the cost of road improvements would be greater than the profits derived by being able to haul good loads at all seasons of the year. The increase in the value of property would a great deal more than offset the cost of good permanent road construction as has been proven in hundreds of cases all over the United States and so that argument falls. The trouble is the roads between the farms and the local markets are so bad as to make the cost of hauling produce almost equal to its value. Good roads throughout the farming regions would do more than anything else to restore prosperity to the farmers, enabling them to get their produce to the best possible market easily, promptly and cheaply. Wherever there are good roads there are good farms with easy access to good markets, which means good prices and good times.—Exchange.

BEAUTIFY YOUR HOME WITH KINLOCH PAINT. Important Memorandum—Kinloch paint is the best quality of paint, costing only 50c per gallon (50c per gallon) and has four years' life. The same paint applied by a brush (50c per gallon) and has only one year's life. The "per-gallon" of the good painter's job is \$12.50—the poor painter's \$25.00. A small investment in paint adds greatly to the value and beauty of your property and makes you a "good neighbor" by making a good neighborhood. Good painting is one of the best investments and pays big returns in improved values. It's a saving, not an expense. But when you paint—buy only Kinloch HOUSE PAINT. There's one indisputable reason why a season every honest painter will acknowledge: "The Oil is the Life of Paint," and the sure way to get good oil is to buy it fresh and pure from the dealer's barrel, not from the ready-mixed paint can. The paint that is ready to mix with linseed oil, gallon for gallon, is KINLOCH PAINT, and we recommend its use for every good reason we know. B. Littlepage & Son, CLAY CITY, KY. DRAGGING

down pains are a symptom of the most serious trouble which can attack a woman, viz: falling of the womb. With this, generally, come irregular, painful, scanty or profuse periods, wasteful, weakening drains, dreadful backache, headache, nervousness, dizziness, irritability, tired feeling, inability to walk, loss of appetite, color and beauty. The cure is

WINE OF CARDUI Woman's Relief

that marvelous, curative extract, or natural essence, of herbs, which exerts such a wonderful strengthening influence on all female organs. Cardui relieves pain, regulates the menses, stops drains and stimulates the muscles to pull the womb up into place.

It is a safe and permanent cure for all female complaints.

Of Interest to the Housewife.

In the February Delineator there is much of housewifely interest. Isabel Gordon Curtis' helpful household serial called "The Progress of a Housewife" touches upon the kitchen and its utensils. Delicious recipes for onions and cakes and desserts are supplemented by an interesting and instructive article on "Meat and Its Uses," and the page of Illustrated Cookery are extremely suggestive. Gardening and house furnishing are other topics of particular interest in the home.

The investment is for the other fellow when he sells it to you.

If You ARE A Democrat Or if You are not You will want to read Bryan's Commoner.

ON MARCH 17 The Commoner announced the Primary Pledge organization plan. This plan provides for Democrats to sign a pledge, binding themselves to attend all primaries of their party between now and the national campaign of 1908. It is a practical method for the organization of the party by the rank and file, in order that it may prove true to its name and be the efficient servant of the people in the establishment of reform. A little investigation will convince you that the Commoner has hit upon a feasible and effective method of persuading Democrats to participate in the councils of their party.

These pledges are pouring into the Commoner office by the thousands, where they are carefully filed by state, county and voting precinct.

If the same interest manifested in this work during the past four months is maintained during the next two years, the total membership will exceed four million Democratic voters.

The Commoner is issued weekly, subscription \$1 a year. By special arrangements, for a short time only, we offer the Clay City Times and The Commoner on one year both for \$1.10.
